INTERNATIONAL SHORT WAVE LEAGUE

Headquarters Founded 1946

The I.S.W.L. was founded in 1946, as it was considered that a radio society, international in outlook, would help to bring together those in every country with a common interest in the fascinating hobby of short-wave radio. This object has been attained and we take a pride in having members in all parts of the world. The QSL Bureau caters for both Licenced and SWL's and handled over 254000 cards in 1971. Full information can be obtained and a sample copy of Monitor (the monthly magazine) by sending 5p or 1 IRC to I.S.W.L. Lydney, GL15 5JE.

Thanks for nice QSO. Mike and my first "W9". Pse QSL. Hope to meet you soon again.
Best 73's Jim.
